

GE VERNOVA

4509 ROUNDS PRO MANAGER

Course Details

Skill Level:	Beginner	Category:	APM Health
Duration:	4 Hours	Platform:	APM V5.X
Learning Type:	Course	Applicable Roles:	Maintenance Planner; Operator; Reliability Engineer – Asset Health
Delivery:	Instructor-Led		
Prerequisites:	None		

Overview

Unlock the full potential of your plant operations with our comprehensive Rounds Pro Manager course. Designed for industrial sectors, this course empowers plant operators to elevate asset management and ensure optimal performance through advanced monitoring and data-driven decision-making.

Dive into the intricacies of the Rounds Pro Manager module and discover how to streamline route management with precision. From creating efficient picklists and step templates to mastering the art of scheduling and sequencing, you'll gain the skills needed to enhance operational efficiency.

Our course demystifies condition assessment, equipping you with the tools to collect data using the Rounds Pro Mobile Application. Transform insights into actionable strategies that prevent technical failures and extend the lifespan of your plant's assets.

With ongoing administration techniques, you'll learn how to adapt step templates, manage routes, and maintain seamless operations, ensuring your plant remains at the forefront of safety and performance.

Join us in this dynamic learning journey and transform the way you approach asset management, paving the way for a safer, more efficient future in your plant operations.

Key Session Topics

- Introduction to Rounds Pro Manager
- Preparation for Route Management
- Managing Routes
- Condition Assessment and Data Analysis
- Ongoing Administration

Agenda

Introduction to Rounds Pro Manager

About the Rounds Pro Manager Module
Using Routes

Preparation for Route Management

Creating Picklists
Creating Step Templates

Managing Routes

Scheduling Routes
Route vs Step Schedules
Sequencing a Route
Conditional Logic
Adding a Reference Document
Activating a Route Master
Validating a Route Schedule
Changing the Status of a Route
Assigning a Route

Condition Assessment and Data Analysis

Data Collection using the Rounds Pro Mobile Application
Data Analysis

Ongoing Administration

Editing Step Templates
Copying Step Templates
Deleting Step Templates
Unlinking Steps from Step Templates
Removing Nodes from a Route
Deactivating a Route
Deleting a Route
